

## ACCESSING STUDENT SUCCESS PAGES

With the purchase of the *Canadian Amateur Radio Basic Qualification Study Guide* comes access to the Student Success Pages on the Coax Publications web site.

1. Go to the following site: **www.coaxpublications.ca**
2. Click on the **Student Success Pages** tab at the left.
3. Use the Invoice # that came with your order - this is your user ID. Jot it down below for future reference. If you are a member of a class and your instructor ordered the study guide this number will be provided to you by your instructor.
4. Enter the Invoice # in the box on the screen and then click on the **Log In** tab in the list at the left. You will be given an authentication challenge, a different one each time you log in. These are based on information on your invoice.
5. Once you are logged in please read the page, especially the section on **Ask The Professor**.
6. Let's start with the **Basic Qualification** first. Click on the **Basic Qualification** tab at the top left.
7. Up come two options, **Review a Chapter** and **Try a Sample Exam**.
8. Let's go with **Review a Chapter**. Go over to the list of chapters and click on the one you want to review. To show you how this works we will use Chapter 3. Then click on the **Review a Chapter** tab at the left.
9. Up comes the first question. You can skip over it by clicking on the **Skip - Give Me Another Question** tab or try to answer it. Let's try to answer the question. Click on the text of what you think is the correct answer, not the question number. If you are correct you will be told this and prompted to go on to the next question. If you are not correct, you will be told where to review the topic in the Coax Publications Study Guide. If you see an **Ask The Professor** window appear at the bottom of the question click on this for a detailed explanation on how to arrive at the correct answer. This will not appear for all questions.
10. Once you have done your review you can proceed to the **Try a Sample Exam** option.

If you have any problems send me an email. Plan B is to call me at 905 727 6672. The lights at Casa Smith are rarely dimmed much before 2300 ET,

Ciao.
